Linking you with sources of support within the community

Information Leaflet

What is Community Referral?

The Health and Wellbeing Community Referral programme is a new free support that covers East Cork, based in Midleton Family Resource Centre. Community Referral is about supporting the health and wellbeing of people through spending time linking a person into local activities. The Link Worker will meet with you and spend time talking to you about what activities interest you, explore hobbies with you and the benefits of participating in them, and will assist and support you in attending these activities. Community Referral involves linking a person into community-based activities and supports, such as exercise, art, reading and gardening.

Who is it for?

Anyone who is over 18. The programme is for you if you feel that you need some support to mind your health and wellbeing or if you feel isolated, stressed, anxious, lonely, depressed or enjoy the company of others. Using resources within the community will help you benefit from meeting other people or taking part in a new activity.

How it Works

Your GP or other health practitioner will refer you to the Link Worker if you are suitable for the programme, or you can self-refer.

The Link Worker will meet you to discuss your needs and the various Community Referral options available.

You will begin your chosen activity with support.

The Link Worker will meet with you after a number of sessions to discuss how you are getting on and your interest in continuing with your new activity.
